

Baw Baw Community Development grant for new computers and printers for Sonshine Toy Library

Sonshine Toy Library have been kindly loaned computers, and donated second-hand ones over the years. And during that time many have greatly assisted with their time and expertise in helping us maintain a basic computer system.

But now, through the Baw Baw Community Development Grant Scheme we have been kindly donated \$3,800 to purchase two of the latest model computers and screens, along with two printers and inks. This will mean we can provide a considerably more reliable service, and no longer have to cope with the hassles of trying to keep old computers going.

The equipment was mainly sourced by LE Computers Warragul. The Committee and especially Kerry, our coordinator, are very grateful to the Baw Baw Shire for their generous support. Kerry is pictured with each of the two new systems.

Tom Guilford, President STL
